MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Reorganization of FMSAC and OSI

Pursuant to your decision at the Management Committee Meeting on 6 August I plan to initiate action to reorganize FMSAC and OSI along the lines recommended in the Joint Study Group Report. FMSAC and the Defensive Systems Division of OSI would be combined to form an Office of Weapons Intelligence under the leadership of Dave Brandwein. Under [redacted] the Life Sciences Division, Physical Sciences and Engineering Division and the Nuclear Energy Division would, in their entirety, constitute a new Office of Scientific Intelligence to deal with foreign science and technology in both military and civilian areas.

25X1 If you concur with this general approach, I will ask Mr. Brandwein and [redacted] to prepare a list of the personnel to be assigned to each of these two new organizations and I will submit these to you for your approval before taking final action.
